Winter Pea		Austrian	Sept 1 – Nov 1		40-60**		Deer-Turkey

* This seeding rate is based on preinoculated seed coated with clay/lime. Use 2 (drill) or 3 (broadcast) of uncoated seed.

** Inoculate Seed With Proper Culture.

All of the above planting rates assume a complete stand for each species. If you plan to mix species, reduce planting rates (such as when broadcasting a 50/50 mixture of wheat and oats, use 60lbs of each for a total of 120lbs).

GAME CHANGER

FORAGE SOYBEANS

GAME CHANGER

FORAGE SOYBEANS **2.0**

BioLogic Game Changer Forage Soybeans are glyphosate tolerant soybeans with good height, great stress tolerance, and an excellent disease package. High protein forage is ideal for providing nutrition for antler, body weight, and fawn growth. Game Changer soybeans are suitable for most all soil types and are also an indeterminate growth type. This bean keeps growing under adverse conditions ensuring a successful, clean plot with glyphosate-resistant weed control.

For a later maturing bean, try **BioLogic Game Changer 2.0**.

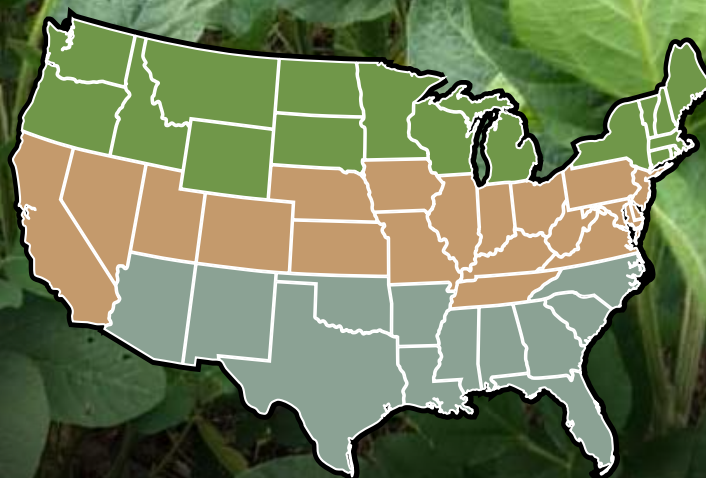

Similar to the original Game Changer, this forage bean offers substantial amounts of forage and pods to help manage your deer.

Offered in **50lb bags**

Planting Rate:

Drilled	50lbs/acre
Broadcast	80lbs/acre

Planting Dates:

May 15 - July 15

May 15 - July 15

May 15 - July 15

The **Heritage** blend is designed to provide not only forage but cover to wildlife as well. This mix has great forage qualities along with structural benefits to help the forage grow to its greatest potential. Heritage has numerous species of seeds that will give the whitetail and other wildlife food during the summer months. This will allow you to have a healthier deer herd and give them the opportunity to grow to their greatest potential.

Call Stratton Seed Company and order Heritage to give the wildlife on your farm the nutrition they desire the most.

Offered in 41lb bags

Planting Rate: 41 lbs/acre
